

# Jimmy Acres: A Tommerdahl Family Farm

Vol. 25  
February 2018

Hello friends and neighbors!

It's been a busy month around the farm and we're excited about all the progress that has been made! Some of the highlights include:

- ♣ Work Day #1: we had the whole crew up for a day of fixing the fence around the garden, mulching, weeding, pruning, planting cover crop seeds, cutting mushroom logs, and fixing the driveway. It's amazing how much gets done with all hands on deck!

- ♣ Lots of seeds have been started and are getting ready to go in the ground! The first of the lettuce, kale, arugula, mustard greens, collard greens, onions, spinach, turnips, and radishes have already gotten their roots in the ground and are looking great. More batches of those, plus bok choy, swiss chard, beets, broccoli, cauliflower, and cabbage are on the way. We do have extras of most plants that will be available for purchase soon (see box to the right).
- ♣ Summer seeds are getting their first start as well, with peppers and eggplants already on the way. Tomato seed planting day is coming up soon!
- ♣ The new Chapel Hill farm stand should be opening up this month, depending on how fast things grow. Keep an eye out for an email with details!

## SPRING PLANT SALES!

It's the perfect time of year to start planting your frost-tolerant crops, and our plants are just about ready to put their roots in the ground. They'd love to make your garden their permanent home!
